SAE Information

Name:	Market Swine 13/14
SAE Type:	Entrepreneurship/Ownership
AFNR Pathway/Category:	Animal Systems - Swine

SAE Plan - Market Swine 13/14

Description

Description: County Market Swine 2014

Interest in Area: Gain knowledge in the area of swine production.

Planned beginning/ending dates: November 20, 2013 - March 30, 2014

Classes taken: Agriculture Food and Natural Resources, Professional Communications

Learning Outcomes: See Learning Objectives

Financial Outcomes: To break even or generate a return on my investment.

Time Investment

SAE Time Investment: Approximately 15 minutes will be allocated for the feeding and inspection of my pig every morning and 45 minutes will be allocated for the feeding, management, and care each afternoon. For the purpose of showing, three full days will be allocated for the local and county shows.

Financial Investment

Financial Investment: The estimated budget for my Market Swine SAE will be \$800 which will include the purchase price of a pig, feed, shavings, project center rent, entry fees, and money for medical expenses if needed. All expenses will be paid for at the time of purchase or services with cash.

Capital Investment

Capital Investment: All capital items needed for this project are owned by the school and are included in the project center rent fee that I pay.

Learning Objectives

Learning Objectives associated with my Market Swine SAE include:

AS.02 Classify, evaluate, select and manage animals based on anatomical and physiological characteristics.

AS.02.02 Apply principles of comparative anatomy and physiology to uses within various animal systems.

AS.02.03 Select animals for specific purposes and maximum performance based on anatomy and physiology.

AS.03.01 Prescribe and implement a prevention and treatment program for animal diseases, parasites and other disorders.

AS.04 Apply principles of animal nutrition to ensure the proper growth, development, reproduction and economic production of animals.

AS.04.02 Prescribe and administer animal feed additives and growth promotants in animal production.

AS.05 Evaluate and select animals based on scientific principles of animal production.

AS.06 Prepare and implement animal handling procedures for the safety of animals, producers and consumers of animal products.

AS.06.01 Demonstrate safe animal handling and management techniques.

AS.06.02 Implement procedures to ensure that animal products are safe.

AS.07 Select animal facilities and equipment that provide for the safe and efficient production, housing and handling of animals.
